Part B for August 1943

SUBJECT PPI

Employment of three more Surveyors temporarily during the current year (43-44) in the md council, Mysore city

To The President Municipal cl, Mysore
The Chief Engineer
Sl 34 The comptroller
No L 1550-2 d 5-8-43
Sanctions the proposal

3. Letter No. 165-63-44/43 Dy 30-7-43 from the DOH, enclosed Dy dy 30-7-43, requesting sanction to the employment of three more Surveyors requiring during the current year an estimated cost of Rs 16,992/-

The reasons for the employment of three more Surveyors in the mofussil for a period of one year from 1-7-43 is explained by the DOH in his letter

The President in the last Para of his letter has stated that a proposal statement is being sent separately with the connected reference quoted by the DOH in this letter.

The DOH quotes GoMO L 9664-66/MSL 13-35-96 Dy 24-6-1936 & states that according to this Go there is also a Spl Subovereer attached to the Health section mainly for looking after the underground drainage But the Go referred to above relates to the revision of the Pay of the two Sanitary Maistries in the Purpose of duty

Rule for orders

The question of the sanction to appoint three Assistant (Surveyors) Surveyors on a

temporary basis for one year from 1943
maybe approves Mr. Chief Engr will
be requested to post the men from this place
It would perhaps be desirable to
A/ Consult the Chief Engr also in this
the matter

the reply requested sent by Immediate Bo

Law Dept
3/8/43 Law Dept

The President has clearly indicated
that there is heavy work for the
existing staff and in view of the fact
that many works are being carried
out amount, 3 more surveyor are
not necessary for efficient supervision
The extra staff may, therefore, be sanctioned

OFFICE OF THE PRESIDENT
CITY MUNICIPAL COUNCIL MYSORE

Dated 28th July 1943

From

B S RAGHAVENDRA RAO Esq MA (Hon)
PRESIDENT CITY MUNICIPAL COUNCIL
MYSORE

To

C Narayanaswamy Naidu, Esq , B A ,B L ,
Secretary to Government, Law Department,
Bangalore

Sir,

Subject - Appointing three additional surveyors in the Municipality

---

I have the honour to state that the sanctioned scale of the Engineering Establishment in this Municipality consisted of four Suboverseers and with the creation of the post of a Licensing Officer sanctioned in G O No 2992-96/M1 11-41-16 dated 11th October, 1941 the above number was reduced by one i e , 3 Suboverseers Excluding the four specially sanctioned for resurvey work, the Trust Board has four Suboverseers There is also a special suboverseer attached to the Health Section mainly for looking after underground drainage (vide G O No L 9664-66/M1 13-35-96 dated 24-6-1936) In all therefore, between the Trust Board and the Municipality excluding the four suboverseers meant for survey work there are 8 suboverseers The working arrangement so far has been that the Municipal, Trust Board and Drainage Suboverseers are combined and deputed one for each Mohalla for the works in the several Mohallas in the City The figures noted below give the outlay on public works in the Municipality and in the Trust Board and it is seen that it has been on the increase for the past three years as noted hereunder -

	Municipality	Trust Board
1940-41	Rs 1,24,830	76,679
1941-42	1,75,563	73,323
1942-43	2,19,600	77,066(Rev Est)
1943-44	2,43,000	1,32,750(Proposed Estimate)

Each Suboverseer in addition to supervising the above works as in the Public Works Department has also to attend to Building

licenses besides, prosecutions instituted by the Municipality for unauthorised construction, encroachments etc, Court work complaints and disputes arising in his Mohalla Further in the Municipality there are also a large number of petty works got done amani and greater supervision by the Suboverseer is necessary in such cases Each Suboverseer is also in charge of four to six gangs (gangs as noted in the margin)* for looking to the works in their several Mohallas In addition temporary gangs are formed off and on as the case may be for attending to special works in each Mohalla The suboverseers have therefore very heavy work

Mohalla	Total No of gangs
Krishnaraj	5
Chamaraj	6
Devaraj	4
Mandi	5
Lashkar	5
Fort	6
Vanivilas	6
Nazarabad	5

While this was so a resolution was brought up by the Municipal Council as noted in the margin*+ Although it was explained to the Council that the present arrangement was the best one in view of the fact that the Municipal Council did not command a sufficient number of suboverseers to attend to the works in the several Mohallas and from other points of view also the separation of the Municipal work from the Trust Board work was inconvenient and that if the Trust Board works were separated extra suboverseers had to be appointed by the Municipality, the Council opined that if necessary, extra suboverseers may be appointed for the Municipality and the above resolution was passed by the Municipal Council

+Resolved that, as, under the present arrangement of the Municipal Suboverseers working for both the Engineering and Trust Board Sections (Combined), satisfactory work is not turned out, and consequently the rate-payers also are put to much trouble, three suboverseers be separately appointed for the Engineering Section

In order to give effect to this resolution and in view of the large number of works proposed to be taken up this year the Municipal Engineer thereupon proposed that three more surveyors at a cost of Rs 1,692/- may be sanctioned for the Municipality and this resolution was passed at the meeting of the Council held on 19th May 1943 with the observation that the above Establishment may be sanctioned for one

year viz , for 1943 A note by the Municipal Engineer explaining the position is also enclosed herewith

I, therefore, request sanction being kindly obtained immediately for the appointment of three more suboverseers to the Municipality during the current year A proposition statement is being separately sent The Chief Engineer is being - separately addressed to post the men for these places

Early orders are solicited

I have the honour to be,

Sir,

Your most obedient servant,

B Neelakandan
PRESIDENT 29/7

Municipal Engineers Note

Extra subordinates required for Municipal Works

There are at present four surveyors and one Sub-Engineer in charge of Municipal works The Sub Engineer does mostly licensing work and is designated as Licensing Officer The four surveyors of the Trust Board are also now mixed up with the Municipal Surveyors and they have been entrusted with all the work of the Municipality and Trust Board one Surveyor being in charge of each Mohalla The total grant asked for, for public works in the Budget for the year 1943-44 is Rs 2,43,000 The progress per Surveyor works out to Rs 60,750/- ~~The~~ In permanent subdivision of Public Works Department, the progress by each subordinate rarely exceeds Rs 30,000 In the Municipality, in addition to supervising of Miscellaneous small works distributed all over the Mohallas, the surveyor has to attend to licensing work, court work of Municipal cases, complaints regarding disputes between neighbours etc Half of his time is spent in licensing work only Hence he will not be able to bestow his attention on supervision of public works and getting the required quality of work done The progress per surveyor as per the calculation given above works out to over Rs 50,000 which is too much

From the statement enclosed, it is seen that the tools and plant and Establishmemt charges for the last four years works out to an average of 10' For the year 43-44, on accoun of the increased grant it works out to 6 8 only

In order to ensure good quality of work, most of the works are now being done amani which require greater effort on the part of the subordinate as he has to issue the necessar materials to the workmen in time, watch their progress and arrange for the individual payment By this amani work, considerable savings were effected during the last year In gravel collection, in metal collection and consolidation work nearly Rs 18 000/- was saved In white and colour washing, painting and decoration works about Rs 5,000 was saved Further the quality of work by amani method will always be

far superior to contract work The middle-man viz the contractor is prevented from taking away huge profits and the poor labourer is made to have the full benefit

For this type of amani work we need greater number of subordinates Further the progress of Rs 60 750/- per subordinate is too much The present strength of four suboverseers therefore is absolutely inadequate In the Health Department there is one Sanitary Inspector for each Mohalla and similarly there should be one surveyor for each Mohalla This method would be very advantageous to get the works done Mohallawar There are seven Mohallas in the City and there should therefore be at least seven subordinates The progress per subordinate will then work out to (Rs 34 71 which is quite reasonable For want of subordinates the surveyors of the Trust Board are also looking after Municipal works On account of this the works of the Trust Board such as layout of sites formation of new extensions, disposal of acquisition cases etc are suffering considerably Furth the grant in the Trust Board for the year 1943-44 has considerably increased and it will not be possible for the Trust Board Surveyors to attend to Municipal works also It is therefore necessary to have three more surveyors At the average rate of Rs 65/- per surveyor the expenditure for t period of 12 months from 1st July 1943 to 30th June 1944 wi be Rs 2,340/- By this extra expenditure the percentage of establishment to the total amount of works increases by 1 0 which is negligeable Further the total percentage viz 7 8 for establishment and tools and plant charges is far less th the limit of 18% generally provided for in all public works

On account of the above reasons the matter was considered in great detail by the Municipal Council ~~held~~ on 19-5-1943 a an additional establishment of three more Surveyors was sanctioned for the year 1943-44

The same may kindly be approved by the Government
